"We feel blessed to have been part of such a wonderful experience through the adVenturesAcademy. We feel more motivated than ever, it was truly inspiring to be able to share our work with people that can feel and fuel our passion... adVenturesAcademy expanded my perspective in many ways with lessons from team building and trust in self and others, together with a great feeling of self-empowerment and sufficiency. It allowed me to push my limits and realise that we are truly capable of making things happen when we put our mind, body and spirit into alignment."
